**Paint Color for Shon Edwards – 88 N Main**

A color sample was presented for the property at 88 N Main. Shon asked if they needed to bring their sign to the committee for approval. The committee discussed the blue color of the building and the sign.

There was concern about how the colors would look together, but it was noted that the actual paint color might look different on the siding.

Kristen Robinson moved to accept the color for the 88 N Main property. Merry Dean seconded the motion. The motion passed unanimously.

It was noted that an application for the sign approval would need to be submitted separately.

Neisha English presented a request to install a 20x30 portable carport at their property on 90 W Pioneer. She explained it would be placed in the backyard, 25 feet from the property line, and used to store vehicles and lawn equipment. The carport would be white in color.

The committee discussed the location and visibility of the carport, noting it would likely not be very visible from the street. They considered that it was portable and white in color.

**Work Meeting Regarding Historic Properties/Monuments**

**Discussion on Historic District Boundaries and Properties**

The committee discussed the need to define what properties should be considered historic and potentially expand the historic district. They debated whether to focus on properties from the 1800s, rather than using a rolling 50-year designation.

Merry Dean mentioned connecting with Main Street USA's historic preservation person and getting information on CLG grants. The committee discussed the need for clearer guidelines on colors, signage, and other aesthetic elements within the historic district.

**Notification to Property Owners**

The committee revisited a previously approved letter to be sent to property owners within the historic district. They discussed the logistics of identifying all relevant property owners and distributing the letter. Committee members volunteered to divide up the task of compiling addresses.

**Future Planning and Goals**

The committee discussed the need to better define their goals for the historic district, including:

Creating clearer guidelines on colors, signage, and building modifications

Potentially expanding the historic district or designating additional properties outside the current boundaries

They also mentioned the need to review and potentially update Appendix A of their guidelines.
